What agenda item do you wish to comment on ?: Bike safety

Comments:

Saskatoon City Council,

I am writing in support of the following motions:

Neighbourhood Bikeways 30km/hr Speed Limit Policy
Connecting Avenue C: Walking and Cycling Improvement Project

I believe both of these measures help move the City of Saskatoon toward a healthier, safer, and more equitable and sustainable active transportation network, which in turn contributes to a happier community.

As a regular bike rider, I welcome infrastructure like the Connecting Avenue C: Walking and Cycling Improvement Project that both encourages more “AAA” (All Ages and Abilities) users and increases accessibility into neighborhoods where people want to go, regardless of their mode of transportation. This project will provide a significant north south corridor for citizens using Active Transportation and provide simpler access to work opportunities in the North business district for those who cannot afford, or do not wish to use, a personal vehicle.

The addition of a 30 km/h speed limit to roads designated as Neighborhood Bikeways will provide a noticeably safer riding experience as it:

- discourages high volume and speed of vehicular traffic
- creates a more welcoming and inviting environment for cyclists
- allows all parties to see each other well in advance
- gives all parties more time to react to the unexpected
- in the worst case scenario of a collision, mitigates the severity and extent of injury

I have not forgotten Natasha Fox and Darin Kinniewess, two community members who died this year while riding their bikes. I want to live in a city where elected officials do everything in their power to reduce the likelihood of further tragedy. With more than 40 SGI reported car/bicycle collisions a year (many others go unreported) the potential for more tragedy is horrifying!

Thank you for your consideration,

Andrew Haas

Ward # 2
