Dear Mayor Clark and Esteemed Councillors,

Recognizing the urgent need for global action on climate change and writing to you as a concerned citizen of Saskatoon, I wish to express my apprehension regarding the potential reduction or delay of our city's climate action plan due to ongoing multi-year budget discussions.

My primary concern arises from the proposed termination of the "Student Action for a Sustainable Future" program, as detailed in the "Environmental Health Business Line Information report." In a time when any further postponement of climate mitigation measures is unacceptable, our young citizens passionately advocate for avenues to construct a viable future for themselves. Ceasing the Student Action for a Sustainable Future program might inadvertently convey the disheartening message that the city is stepping back from its commitment to rectifying the ecological damage that affects the future that current youth will inevitably inherit.

As a citizen residing in Saskatoon's Ward 10, I urge our city's representatives to vigorously support and allocate resources to programs, services, and initiatives that effectively combat the current climate crisis. Among these pivotal efforts is the Student Action for a Sustainable Future program.

I extend my profound gratitude for your consideration of this matter.

Sincerely,

Ines Sanchez-Rodriguez
Citizen living at ward 10.

Will you be submitting a video to be vetted prior to council meeting?: No
