Comments:

This 5-page Information Report and 13-page appendix report were prepared by Mr. Jordan and Mr. Kowalchuk by applying statistical techniques and Statistics Canada's population estimates methodology to estimate the Saskatoon population as at July 1, 2023. The Information Report indicates that this information will be available from Statistics Canada in May 2024. Who requested this preliminary estimation? For what purpose is this preliminary estimation required now that couldn't wait until Statistics Canada publishes their estimates in May?
