**What agenda item do you wish to comment on ?:** 7.2.1 – 31st Street Bikeway Connection to 33rd Street Shared-use Pathway Functional Plan

**Comments:**

To Members of the Standing Policy Committee on Transportation,

It is incredibly heartening to see city administration working on the "connective tissues" of the active transportation network; now instead of islands of pleasant (and safer) roadway or path surrounded by carscape, we're beginning to see the promise of truly continuous corridors that will allow all modes of travel to operate in a much safer and uninterrupted way.

All road users should benefit from this kind of improvement. Vehicular flow will be smoother and less congested, other mobility modes will be more predictable and protected.

To quote Saskatoon Cycles:

"I believe this kind of connection is vital for a modern city that is keen to integrate current infrastructure into a safer, more continuous, and more accessible network for all modes of travel.

I want this kind of city."

Please forward this to city council with administration's recommendation for approval.

Sincerely,

Jason Hanson  
Ward 2
