**Comments:**

To Members of the Standing Policy Committee on Transportation,

I am writing in support of the following motion:

7.2.1 – 31st Street Bikeway Connection to 33rd Street Shared-use Pathway Functional Plan [TS2024-0204]

I support the city administration's plan to create a connecting active transportation route between the 31st St. Bikeway to the 33rd St. multi-use path, and would like to see their recommendations sent to city council for approval.

I believe this kind of connection is vital for a modern city that is keen to integrate current infrastructure into a safer, more continuous, and more accessible network for all modes of travel. Currently because Saskatoon has no proper network of separated cycling network this connection is vital for building city we all want to live and thrive. 1 dollar spent for cycling infrastructure has greater return on city's investment for health and happiness for its citizens.

Please check this videos out if you do not believe me for whatever reasons:
