Dear Council

I am writing to request that you do not endorse the Saskatoon Freeway Phase 2 report.

I am a grassland ecologist and conservation biologist who studies and teaches on these subjects at the University of Saskatchewan. I am very familiar with the biological values in the Northeast Swale and Small Swale area, and am confident that building a roadway as laid out in the Phase 2 report will cause irreparable harm to the ecological integrity of this area.

I urge council to reject this report, and to work with the Province to identify a roadway route that does not cross the Northeast and Small swales.

Thank you,

Eric Lamb
