**Comments:**

Saskatoon has done an amazing job, along with their partners within Meewasin, in protecting, developing and enhancing green space along our river and throughout our city. Saskatoon is the envy of other urban cities across Canada for its green space development and protection of ecological sensitive areas. The Provincial Governments proposed Phase II Highway Development plan is in direct conflict of Saskatoon's care of the environment. The plan of running the bypass through the Swale will create irreversible damage to habitat and natural function of this area. I strongly request that Council reject the proposed plan and ask the government to select an alternative route. Natural habitat is the jewel in the crown of city park development. It can not be recreated and once altered is is gone forever.
