**Comments:**

I support the city administration's plan to create a connecting active transportation route between the 31st St. Bikeway to the 33rd St. multi-use path, and would like to see their recommendations sent to city council for

approval.

This is one more important step toward the creation of a city-wide network of paths for bicycles and pedestrians. It is one more step toward enabling a healthier lifestyle than driving cars everywhere. It is one more step toward the reduction of climate-changing greenhouse gas emissions from those cars. It is an important step and I encourage you to send the recommendations to city council for approval.
