Comments:

I support Option 1 to not endorse the study. I do not believe the future impact of the route and infrastructure presented in the plan has been adequately studied. The Northeast and Small Swales are aspects of the City that are unique and invaluable for the future. We must as a city look more carefully at plans that can potentially destroy their existence and use for future generations. Please reject this study and call for a thorough multi-disciplinary study of all aspects of future transportation needs, impact on wildlife, impact on air quality and impact on recreation and health of the natural environment. Thank you.
