Comments:
I live outside of Saskatoon and needed to add a neighbourhood to summit this comment.

Grasslands are one of the most threatened ecosystems on the planet.

The City of Saskatoon can lead Canada and the world on prairie protection by saying NO! to to building a major highway through the Northeast and Small Swales.

Not only will this protect important Aspen Parkland natural areas, they inspired the Aspen Parkland Corridor. The corridor, when realized will connect habitat from BC to Minnesota.

Saskatoon can make history by declaring the Northeast and Small Swales as the foundational home of this rewilding project.

Be bold, the life support system of the planet needs you.

Will you be submitting a video to be vetted prior to council meeting?: No
