**Comments:**

I implore City Council to continue to protect the fragile and important Swales. These unique areas, that I visit in all seasons, are an integral part of the uniqueness of our beautiful city. They contribute to the beautiful environment, as well as have important contributions to protection of our native habitats for many vulnerable species. As we all know, once these areas are destroyed, we will NOT get them back, and the benefits are lost to the generations coming after us. I am not against the development of infrastructure for our growing city, and implore that you please find a way to do this without destroying this important resource. Thank you for all the efforts you make to develop our city as a beautiful and growing place.
