Comments:

I am an avid teenage biker in the city of Saskatoon, and I am tired of putting my life on the line because I chose an active way of transportation.

Biking throughout the city year round to school and sports I have seen how drivers treat cyclists, with disrespect and no patience. Bike lanes, and education to drivers would fix a lot of these problems. With a protected spot on the road I would feel safer on the road, and with education directed to drivers about how to drive with bikes on the road my commutes would no longer provide added stress and danger. In conclusion, the only thing I am asking for is to be able to bike to school and work without having my friends and family worry about me. Whether that be bike lanes, especially downtown or in areas of high traffic, or education and signage for drivers as well as cyclists to know how to commute safely. [SEP]As leaders of our city, you have the power to keep cyclists safe on the roads, it is up to you to influence those with the power to implement those safety measures in order to keep the citizens of our city safe. [SEP]Thank you [SEP]- An avid cyclist who wants to stay safe [SEP]
