**Comments:**

I urge Council to vote against the Freeway Functional Planning Study.

If the City wants to promote a healthy environment for its residents, it's impossible to plan for eight or even 10 or 12 lanes of traffic, particularly through a sensitive area.

If the City wants to be considered for a National Urban Park, there can't be a freeway through these two rare and important zones.

If the City has limited financial resources, it's not a good look to destroy something irreplaceable while adding to the burden to taxpayers.

Pease vote no to this harmful and unnecessary proposal.

Best wishes.
