**Comments:**

I believe that a great city allows its citizens to get around safely in the manner that they choose. With the current climate crisis and obesity epidemic getting our citizens walking and cycling is very beneficial. I believe that both of these initiatives will do just that.

Pedestrian activated signals and a separate shared use pathway will greatly increase safety for citizens in the Second/Third Avenue area. This is currently a difficult area to access safely unless you are driving.

I also believe that a neighborhood bikeway on Munroe Avenue will provide a safe cycling access to campus and RUH.

Please support both these initiatives. Thanks

Lynne Meredith
