<sup>\*</sup> Sidewalks are required to be cleared no later than 12:00 noon the day following the accumulation of snow or ice.

<sup>\*\*</sup> Bylaw provisions were modeled after the City of Saskatoon's Sidewalk Clearing Bylaw with Schedules outlining areas with 24-hour removal timeframe.

<sup>\*\*\*</sup> City crews clear all residential and commercial sidewalks when snowfall accumulation is 2 cm or more in depth.

<sup>\*\*\*\*</sup> Timeframe applies to "commercial buildings". Under the definition, "commercial" means a building in which the activities are primarily the buying and selling of merchandise or the provision of services.
