Comments:

Dear City Council,

I feel that great cities are places that allow all citizens to move safely from neighborhood to neighborhood regardless of their mode of transportation. Every step that the City of Saskatoon can make toward expanding a baseline network of safer cycling and pedestrian routes is a good step.

I would like to ask you to consider supporting the following two items on the agenda:

Item 1: Connecting 2nd Avenue/3rd Avenue: Walking, Cycling, and Driving Improvements.

I support Option 2A – Widen to the West.

I feel that pedestrian actuated signals and a separated shared-use path are great features that will enhance this area of the city and make it much safer for pedestrians and cyclists.

Item 2: Opportunities for Rapid Deployment of Safety Improvements on Active Transportation Route.

I support Option 2: Implement a Neighbourhood Bikeway using Rapid Deployment on Route 6.

I believe a bikeway along Route 6 (Munroe Avenue) would offer more access to campus for active transportation users with a wider range of abilities and theoretically could reduce University traffic congestion in general, and at College and Wiggins in particular.

I urge you to support these items and help make Saskatoon a bit safer for all road users.

Thank you for your consideration.
