Walking Saskatoon supports the proposed Route 6 for rapid deployment improvements because it offers a high degree of connectivity across neighbourhoods and improves the safety of the large numbers of people using Active Transportation as they move north-south in this area of the city.

The improvements offered by Route 6 should complement improvements for pedestrians and cyclists along Wiggins, not replace them.

Rapid Deployment measures have the advantage of being quick, relatively inexpensive, and relatively easily changed or improved over time if better solutions or routes become apparent and we encourage council to continue to fast-track cheap and effective active transportation solutions.
