Comments:

To City Council,

Great cities are designed so all citizens to move safely from neighborhood to neighborhood regardless of their mode of transportation. Every step that the City of Saskatoon can make toward expanding a baseline network of safer routes, where people can get around in a safer manner, is a good step.

Before you are two items of business that I believe represent these kinds of good steps.

Regarding item:

Connecting 2nd Avenue/3rd Avenue: Walking, Cycling, and Driving Improvements, I support Option 2A – Widen to the West.

I strongly believe pedestrian actuated signals and a separated shared-use path are great features that will enhance this area of the city and make it much safer for pedestrians and cyclists.

Regarding item:

Opportunities for Rapid Deployment of Safety Improvements on Active Transportation Route, I support Option 2: Implement a Neighbourhood Bikeway using Rapid Deployment on Route 6.

I strongly believe a bikeway along Route 6 (Munroe Avenue) would offer more access to campus for active transportation users with a wider range of abilities and theoretically could reduce University traffic congestion in general, and at College and Wiggins in particular.

I urge you to support these items and help make Saskatoon a bit safer for all road users so noone dies or injured at least in these two improved infrastructure. Do the right things now so saskatoon will catch up with other cities like Calgary, Edmonton and Winnipeg and keep its young families and professionals stay.

Grateful for your consideration.
