Comments:

I am very alarmed that our city and province are planning to further disturb the swales that have been protected in the past. I request that our governments make a firm commitment to protect these areas so that we can be proud of a wise decision made for our future. We have too much city spread damaging nature already. We cannot continue to damage these areas/. Please vote NO to the proposed Phase 2. Please make honouring and conserving natural space a priority. I will grieve if we lose our swales, many previous committees and council members have done so- please do not sell out.

Will you be submitting a video to be vetted prior to council meeting?: No
