**Comments:**

I am in favour of providing housing for students and homeless as we all are. I am not in favour of having rezoning to allow the destruction of existing established neighbourhoods that have given us visible historical value. Student housing should be built on the vast University property. Building four and six storey buildings should be built for the homeless where the need is greatest. If the housing in the North, Northeast and South areas are at 1% perhaps that's where building should be focused first. It seems decisions are being made quickly without considering the impact on areas that once affected won't be able to be corrected without lasting damage. Thank you for your consideration.
