Comments:

Dear City Council,

I recently learned that the City is proposing changes to zoning bylaws that would allow:
up to Four-units of housing on any 50ft residential property city-wide
up to Four-storey housing in areas close to Transit corridors across the city
up to Six-storey housing on Transit Corridors and near transit stations

I understand that these changes are being proposed in order to:

speed up the creation of more housing units

make it possible to create more housing in existing neighbourhoods

make sure Saskatoon qualifies for the Federal Housing Accelerator Fund that the City will use to help get more affordable housing units built

I support the proposed changes and ask that City Council vote in favour of them on June 27. These changes will help combat the housing crisis in our community and make it easier for families and neighbours to find better, more affordable housing.

Combatting the housing crisis is important to me because it is inhumane to think that people can live in the conditions available at this time. There is undue suffering and we have the ability to change to co create a better future for all of us. Let's listen to the people who are living without homes and those with family in this same situation. Let's build the future together, no one left behind.
