Comments:

I support the staff recommendations for the land use amendments and Housing Accelerator Fund. I think this plan is an excellent way for Saskatoon to improve density and affordability in already built-up areas of the city, instead of sprawling more out into good farmland. These amendments allow Saskatoon to grow and change over time in a way that makes sense. I am really glad that the city is finally building BRT routes, because it will make it easier to get around the city, especially for seniors and young people. My grandparents have many friends who have lost their driver's licenses and are now confined to their house because it's hard to get around in town without a car. I want to live in a city where everyone can move around safely and easily. The housing accelerator fund and these plan amendments make it easier to live in areas close to this transit. These amendments will make it easier to build reasonable projects and give city staff more time for complicated projects.
