Comments:

I support the changes proposed by the HAF. Allowing up to for units per lot and the proposed changes to residential areas including the transit corridor and BRT stations will provide better more accessible and affordable housing options across our city. The increased density will make our city more sustainable, reduce personal vehicle use, increase transit and active transportation, and provide higher density to support local businesses.

I also believe more garden suites and MUH units on corner lots facing side streets combined with more people using the streets as active users will make our communities safer, and provide for better longterm sustainable growth that our city needs. Please vote to support the HAF changes.
