Comments:

I am writing to express my support for the removal of costly parking mandates. In the midst of a (affordability crisis/climate crisis/fiscal crisis) the city must do all it can to support affordable and ecologically responsible development.

It's imperative that parking space throughout the city is de-prioritized, in particular in new developments, and development initiatives relating to increased density and housing capacity. I'm proud to live in a neighborhood where parking is minimized, and I wish more of the city took an approach without parking lots, or any major surface areas devoted to parking.

Will you be submitting a video to be vetted prior to council meeting?: No
