Comments:

Please find my attached letter opposed to removing Municipal Reserve Designation from 1635 McKercher Drive. I believe the city is moving too fast, to find areas to build low income, High Density Housing in order to use the Federal Money for this purpose.

Will you be submitting a video to be vetted prior to council meeting?: No

To: Mayor Charlie Clark and all Elected Ward Council Members:

Removing Municipal Reserve Designation from 1635 McKercher Drive in order to offer the Land for Sale.

I am opposed to removal of the Municipal Reserve Designation from 1635 McKercher drive.

This Land designated as a municipal reserve protects the land around the Lakeview Community Centre from being sold to increase population density, to remove trees and reduce green space available for community socializing for present and future generations. Our city councillors have worked diligently to protect and maintain an environment that is known for beauty safety and environmental green spaces.

Do not remove the protection from our established municipal reserve area.

I do not believe that there has been adequate study done to add high density housing to this area.

Is the Power Grid able to handle more homes? Is the Water and Sewer lines large enough for more homes to have adequate flow for fire emergencies? After the Lakeview Complex was built it took the city a very long time to install the Pedestrian Walk Lights at McKercher Drive and Heritage Cres. With the addition of many new families at this corner this intersection will now require full traffic lights.
