Comments:

Greetings, we are a new dance studio located at 205A Pacific Avenue. This is right across the street from your proposed shelter space. I want to make known the safety issues that will come from having a shelter directly across the street. We have primarily young female dancers coming and going from the building continuously from 5:15pm-9:30pm each day. Many of these dancers are driving themselves and not car-pooling with friends. We are very concerned for their safety as well as the safety of our teachers. We believe that all people deserve food and shelter. However, the proximity of the shelter proposes many risks for our dancers. We are also concerned for our teachers, who are female, leaving the building on their own each evening. There are protocols that we have in place for leaving the building each night. However, this proposed shelter is amplifying the risk to our dancers and teachers.
