

## Community Support Program Key Indicators of Success Summary

The Community Support Program (CSP) tracks a large number of indicators through their reports and patrol counts. They also keep a written record of concerns or complaints, client information, developing trends, warnings or cautions that have already been issued, needed follow-ups, as well as other information. Other numbers are drawn from the Street Activity Baseline Study's (Baseline Study) most recent update and from Saskatoon Police Service (Police Service) data.

### Key Indicators of Success - CSP Pilot Program Summary:

| Program Outcomes               | How To Measure                                | Indicators of Success   | 2015   | 2016 | 2017  | 2018 (Jan-Jun)                                      | Change 2015-2017                                    |
|--------------------------------|---|---|--|------|---|---|---|
| <b>ALL</b>                     |   |   |  |      |   |   |   |
| Increase perceptions of safety | Baseline Study Survey updates                 | <ul style="list-style-type: none"> <li>Increased perceptions of safety in BIDs (drawn from Baseline Study)</li> </ul>           | <b>87 %</b>  | NA   | NA  | <b>85%</b>  | <b>-2% (not significant)</b>                        |
| Establish a program database   | Increased ability to target program resources | <ul style="list-style-type: none"> <li>Strategic use of data to identify hotspots and emerging issues geographically</li> </ul> | Data collected and analyzed for program trends, identifying hotspots, and helping generate program reports | NA   | November 2017 New database (Resolver-Perspective Mobile) comes on-line. This database allows for mobile reporting, as well as easier and more comprehensive program reporting | New database fully operational and all data updated | New database fully operational and all data updated |
