Meeting (if known): Planning & Development Division Mtg regarding Discretionary Use  
Comments:

Proposed Pre-School - 3437 11th Street West. Discretionary Use Application

I do not support the requested change. Each community has land zoned for school or educational activities. The proposed pre-school should operate on the land designated for educational purposes at either the Public or Catholic Schools in Montgomery Place and not in the proposed dwelling.

A person buys into a neighbourhood designated for residential or home dwelling purposes. The operation of a pre-school is not a residential activity consistent with a residential neighborhood. My household rejects this proposal.

Please contact me if you have any questions or concerns.

Thank you.
