

STANDING POLICY COMMITTEE ON TRANSPORTATION

Neighbourhood Traffic Management – Vertical Traffic Calming Devices Pilot Project Update

Recommendation of the Committee

That the Administration report back with criteria on where vertical calming devices could be considered, and that the Administration continue to try different vertical traffic devices under different conditions.

History

At the February 11, 2019 Standing Policy Committee on Transportation meeting, a report of the A/General Manager, Transportation & Construction dated February 11, 2019 was considered.
