RE: Request to speak at PDCS Committee Meeting, Monday, March 11, 2019

Dear City representatives:

Saskatoon SPCA is a long-time collaborator with the City and provides a range of animal services, including sheltering of animals brought in under Animal Control bylaws, lost-and-found services for pet owners, and enforcement of the province's Animal Protection Act.

To humanely address the growing issue of pet homelessness in the City and to provide a higher level of service to our community, Saskatoon SPCA proposes to add a clinic to the existing, City-owned facility.

I request a few minutes to speak to the committee about this proposed project.

Best regards

Patricia Cameron
Executive Director
