Secretary, Standing Policy Committee on Transportation

Dear Secretary:

**Re: Saskatoon Accessibility Advisory Committee – City of Saskatoon 2012 Facility
Accessibility Design Standards Document [File No. CK. 600-7]**

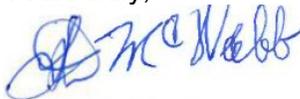

The Saskatoon Accessibility Advisory Committee, at its meeting held on May 10, 2019, considered the City of Saskatoon 2012 Facility Accessibility Design Standards document as part of its workplan and resolved:

That a letter be forwarded to the Standing Policy Committee on Transportation requesting that the Administration review and update of the 2012 City of Saskatoon Facility Accessibility Design Standards document for subsequent approval by City Council.

The Committee agreed that the 2012 draft document should be reviewed and updated for best practices and in alignment with The National Building Code of Canada 2015. Although these standards are only applied to all newly constructed and/or renovated City of Saskatoon owned, leased or operated facilities, other agencies use this document as a resource.

The Saskatoon Accessibility Advisory Committee respectfully requests that the recommendation be considered by the Standing Policy Committee on Transportation.

Yours truly,

**JD McNabb, Chair**
Saskatoon Accessibility Advisory Committee
