For Office Use Only:

Comments: _____

File No: _____

Cash Receipt No: _____

Amount Paid: _____

Cheque No: _____

Reason for Development Appeal: 235 Evergreen Square

- 1) Does not negatively impact neighbouring properties:
The Landscaping at 235 Evergreen Square demonstrates the highest quality of workmanship, design and positively impacts the streetscape and neighboring properties.
- 2) What makes it Unique?
The use of rocks in hardscaping in this particular design was to share the "Prairie Theme" created by the City of Saskatoon in their design of neighbourhood parks and boulevards. Further, there is precedent to accept the use of rock as an acceptable form of hardscaping in Saskatoon and we refer you to 39-2018 Main Street that also appealed this landscape deficiency and won.
- 3) Does it defeat the intent of city zoning bylaw? The purpose of this Bylaw is to regulate development in the City of Saskatoon to provide for the amenity of the area and for the health, safety, and general welfare of the inhabitants of the municipality, in accordance with the provisions of the Official Community Plan. The use of rocks in hardscaping does not in any way defeat the intent of said bylaw, and in fact, shares the same "Prairie theme" as the boulders that were used were the same as those used by the City of Saskatoon in their landscape of the parks, boulevards and roundabouts in evergreen.
- 4) The landscape design implemented on this site is environmentally friendly, using natural boulders and plantings, as well as a drip irrigation system. In comparison to large expanses of lawn that would require water, fertilizer and weed control, this design minimizes the use of these and saves water. In addition, a large quantity of the boulders were naturally occurring on site.
- 5) The landscaping at this property has been completed since the Spring of 2015 and in the time since, not a single complaint or concern has been raised. We believe that these issues should have been brought forward prior to this time and that to expect a massive landscape change at this time is unreasonable and extremely costly.
